

In the home page, align the contents, make it fill the same space in the contents box

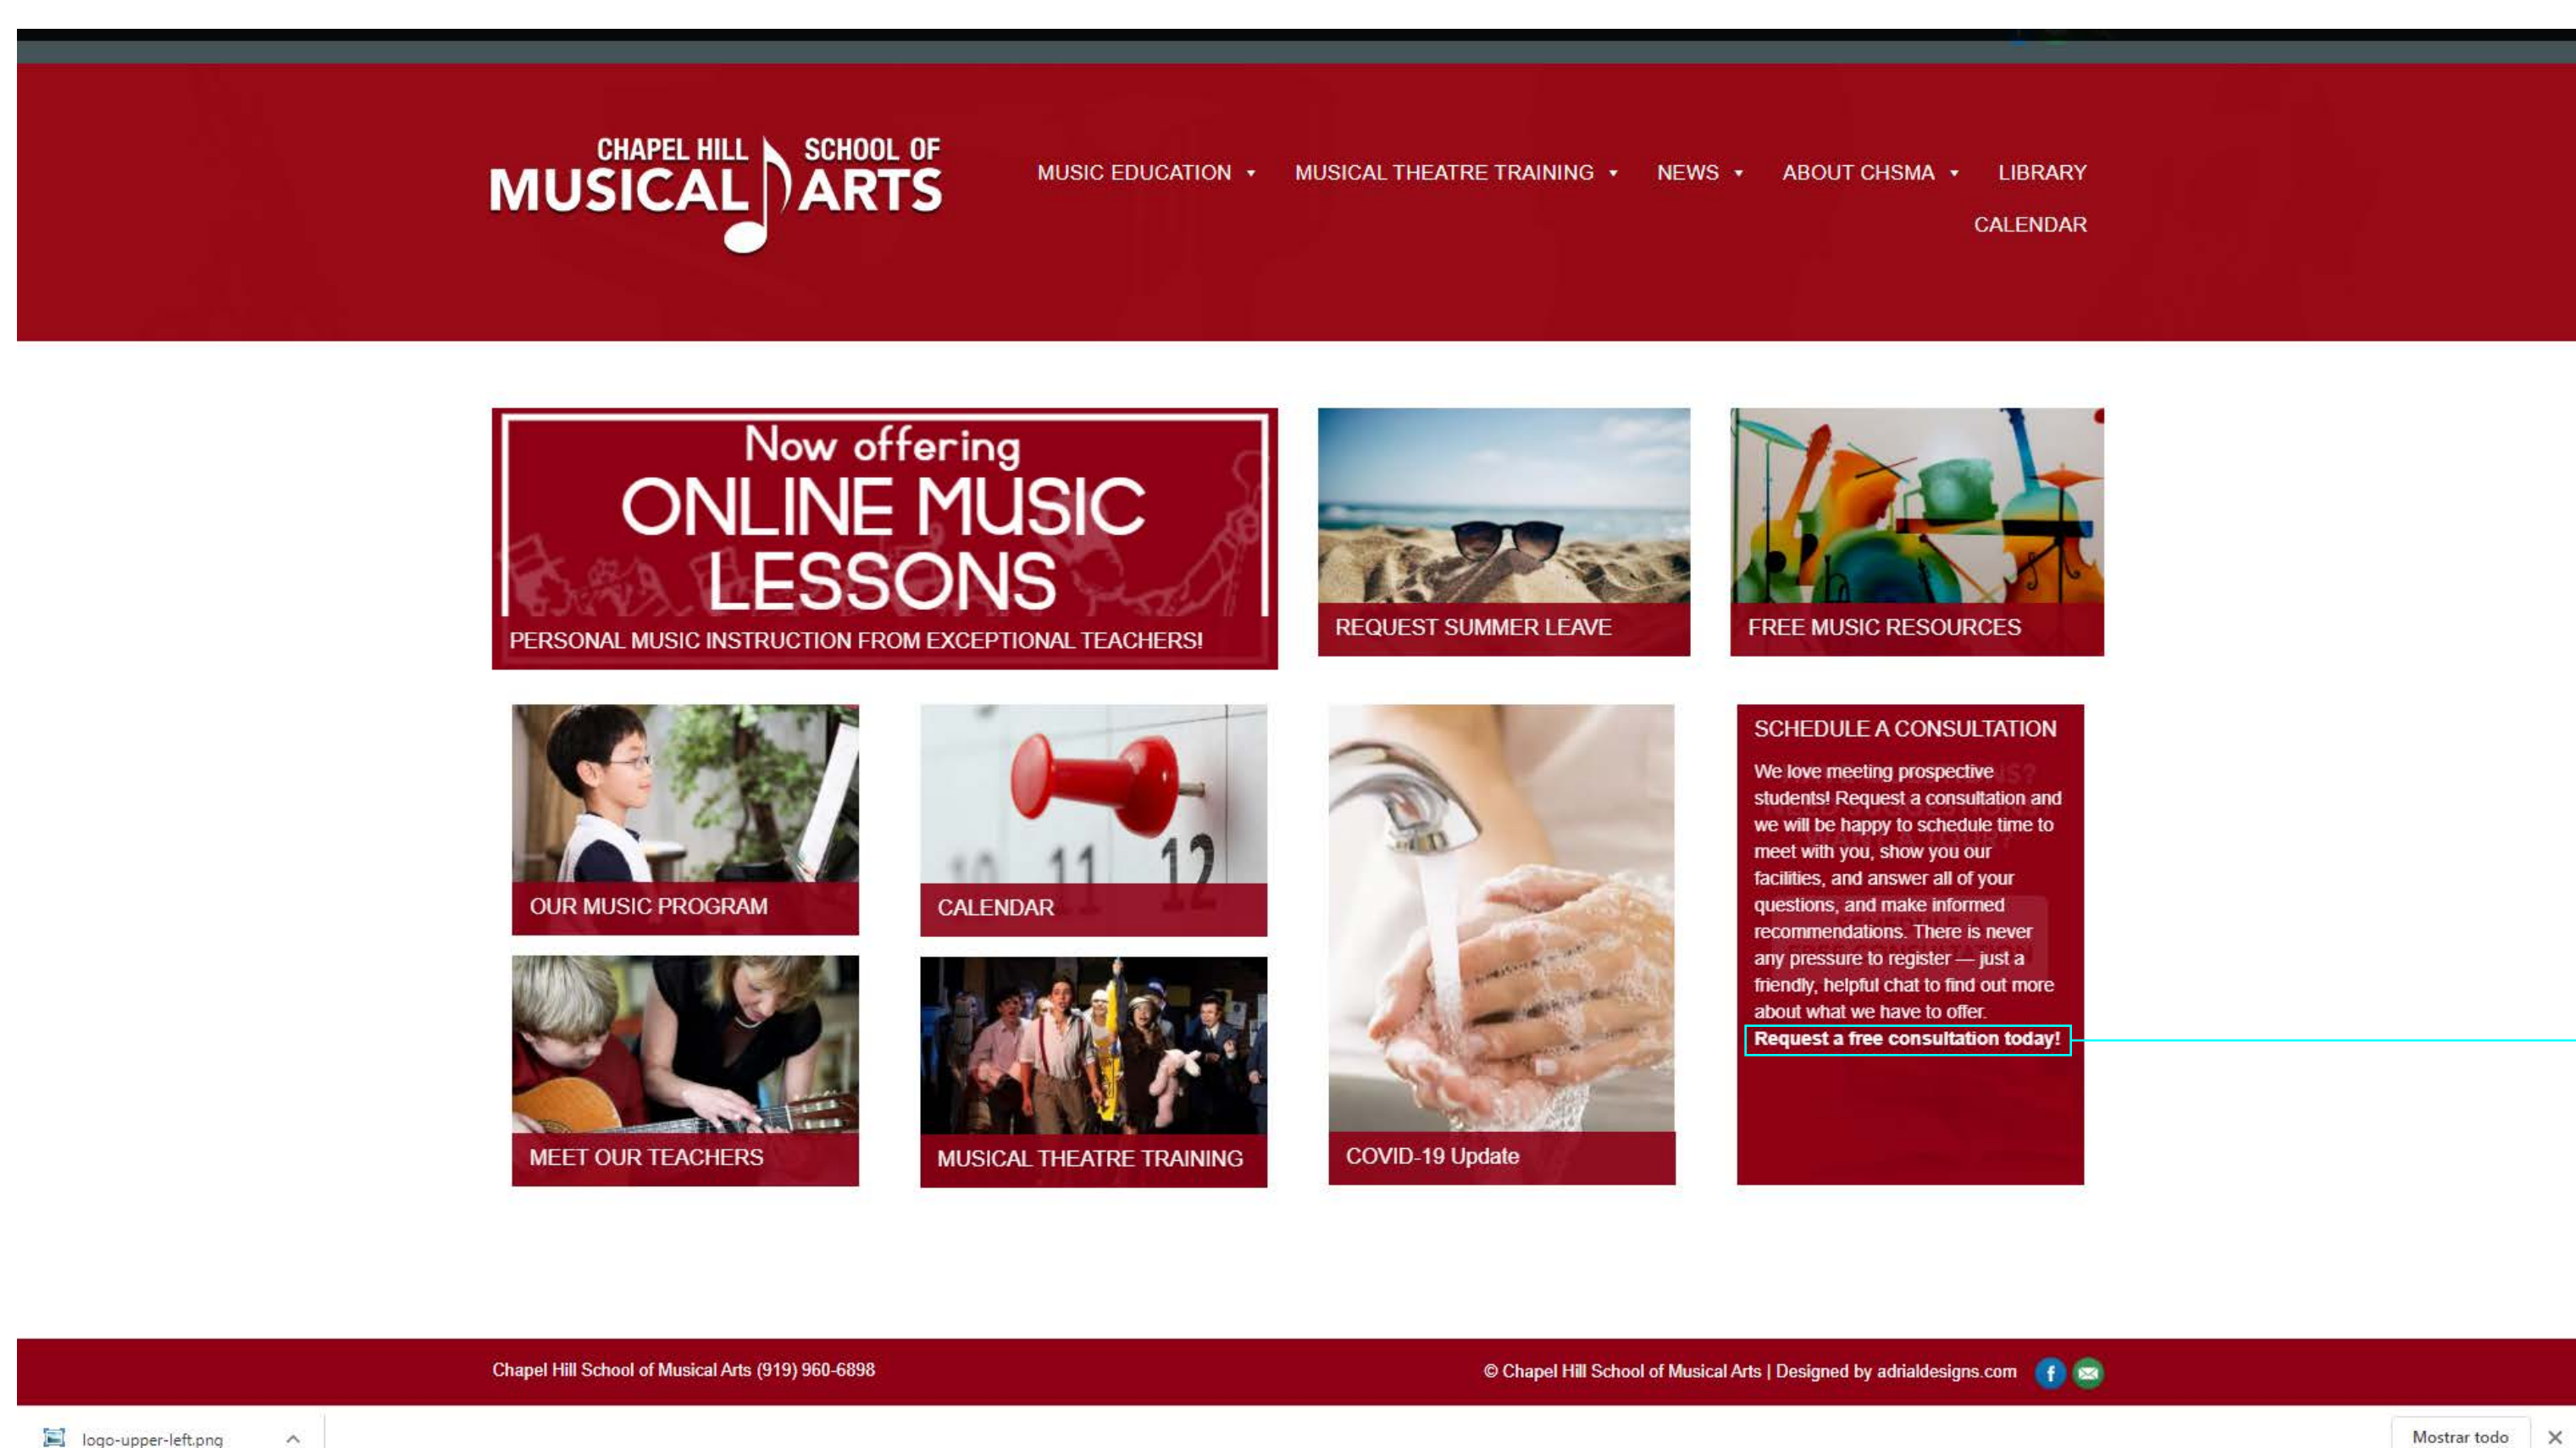

Enlarge the content box a little and reduce the size of the logo so that the menu remains on one line.

I would put the CTA's in the Home, I can't find any way to contact the school in the Home

In the card of "OUR MUSIC PROGRAM", the CTA, is not seen, is out of the box

I would highlight the buttons on each of the cards, you can't tell the difference between the text and where I have to click to get more information. I would do something like this:

Request a free consultation today

White background, white typography and a little more separated, to identify it easily

Give the buttons a padding-right, so that the bottom of the hover does not get stuck to the edge

Make the images occupy the whole container

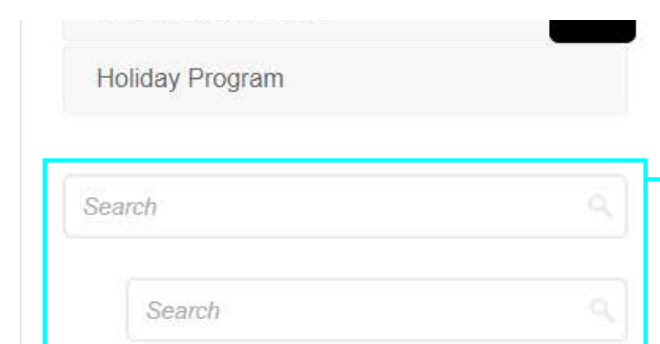

On certain pages the CTA widget is not centered. Highlight the contact information and increase the size of the social network icons.

The button to close the responsive menu, covers part of the content and the dropdown cannot be used

Centering the contents in the containers. The menu button, covers the "Scroll to top" button.

On certain pages we have 2 search fields.
